OBJECTIVE

To obtain a position of fullstack developer where I can maximize my skill for the benefit of the organization.

WORK EXPERIENCE

FullStack Developer
Cybomb Technologies Pvt Ltd - Chennai   June 2025 – Present

- Developing and maintaining full-stack web applications used in production environments
- Building scalable frontend interfaces using React.js with modular, reusable components
- Designing backend logic, APIs, and database structures for business-critical systems
- Implementing role-based access control and authentication across multiple platforms
- Integrating AI-driven features and n8n automation workflows into web applications
- Collaborating with product and design teams to translate requirements into deployable solutions
- Handling deployment, environment configuration, and production debugging on Linux servers

Frontend Developer Intern
Cybomb Technologies LLP – Chennai   November 2024 – May 2025

- Created and deployed multiple responsive portfolio websites using HTML, CSS, Bootstrap, and JavaScript
- Converted Figma designs into pixel-accurate, mobile-first web interfaces
- Improved UI alignment, animations, and overall user experience across multiple products
- Worked closely with backend developers to integrate APIs and dynamic data
- Assisted in optimizing frontend performance and fixing cross-browser compatibility issues
- Gained hands-on experience with real-world production codebases and agile workflows
